

Roost Smart Water Leak and Freeze Detector (RSW-200B)

Smart multi-function sensor for your home protection.

The Roost Smart Water Leak and Freeze Detector is a Wi-Fi-connected, multi-function sensor that detects major home problems like water leaks, humidity & freezing/high temperatures. This Smart Sensor together with our Smart Battery provide complete coverage of major threats to your family and your property. This Smart sensor working together with our Roost App will alert you if water is detected, or humidity/temperature go outside your preset levels.

MSRP \$49.99

Features

- **Multi Sensor Detection.** Our Wi-Fi enabled smart sensors accurately detect water, humidity, & temperature.
- **Alarm notifications delivered to you, wherever you are.** Alerts your smartphone whenever your alarm sounds. Early warning to water leaks that could turn into major issues and property damage.
- **Battery powered.** Does not require power outlet. Lasts more than 3 years with replaceable AAA batteries.
- **Improved setup.** Easier, faster and silent connection to home Wi-Fi.
- **Customizable levels.** Using the Roost App, you can simply set the temperature & humidity range that you want to monitor.
- **Convenient and Easy.** The low-profile shape is designed to be placed in the most appropriate locations around your home.
- **Alert Your Family and Friends.** Unique monitoring feature allows you to invite trusted friends to receive smartphone alerts if your alarm sounds when you are away.
